Instructions for counsel

(not to be replicated on the Addendum to be submitted)

- 1) Any objection and any claim that a guideline or application note has been incorrectly applied or omitted must be accompanied by a clear explanation. Saying that "the defendant disputes" a fact, without providing an alternate explanation or reference to *specific* evidence in the record or discovery, is generally unavailing. Saying that "the defendant states" something without pointing to evidence in the record is a similar gesture.
- 2) Do not use the Addendum format or the formal "objection" process merely to claim a minor factual error, i.e., one that has no effect on guideline calculations nor forms the basis for a departure (such factual claims may be presented to the Probation Officer by letter or memorandum), to point out a mechanical result or an alternate guideline calculation that depends on the resolution of a challenged factual item, or to "object" to required PSR comments such as factors for possible departure. Such matters may be presented to the court in the form of a sentencing memorandum. Always provide a copy to the Probation Officer.
- 3) When a party has presented a material objection that has not been accepted by the Probation Officer and remains for resolution by the court, any opposition must expressed in writing whether or not the court specifically orders a response. Always provide a copy to the Probation Officer. Responses should correspond to the numbering of the objection(s) and clearly explain the party's position on the facts and the law.
